1957

INDEX

January to December

1957

Page

A

Allen Organ, The, by A. Douglas 328
Amplification at Sub-Audio Frequencies, Selective, by F. J. Hyde 260
Amplifier for A.C. Bridges, An, by A. H. Allen, J. R. Gabriel and B. H. Robinson 597
Amplifier for Distribution of Programmes, A U.H.F. Wide Band, by J. Kason 600
Amplitude Modulator Employing Envelope Feedback, A 16kc/s, by K. G. Corless 287
Amplitude/Time Analyser for a Band of Low Frequencies, A Continuous, by W. A. P. Young 206
Analogue Computer for Vehicle Suspension Development, Use of 342
Analogue Computing Machines, Approximating Non-Linear Functions by Shunt Loading Tapped Potentiometers in, by D. W. C. Shen 434
Analogue Multiplier Using Crystal Diodes, A Wide Band, by M. E. Fisher 580
Automatic Fog Warning Instrument, An, by J. W. Nichols and M. H. Westbrook 519

B

'Bizmac' Digital Data Processing System, The, by J. C. Hammerton 174

BOOK REVIEWS .. 44, 96, 144, 198, 248, 300, 348, 402, 456, 508, 560, 612

Advances in Electronics and Electron Physics, Vol. 8 249
Analog Computer Techniques 402
Analysis of Bistable Multivibrator Operation 45
Approach to Modern Physics, An 144
Atomkraft 612
Automation in Business and Industry 612
Basic Mathematics for Radio and Electronics 457
Cathode Ray Oscilloscope Circuitry and Practical Applications, The 402
Circuit Theory and Design 248
Communication Engineering 300
Computers—Their Operation and Application 250
Digital Calculating Machines 509
Digital Computers 561
Dry-Battery Receiver with Miniature Valves 612
Electrical Interference 46
Electrical Production of Music, The 350
Electricité 348
Electronic Analog Computers 348
Electrical Components Handbook 560
Electronic Computers Principles and Applications 144
Electronic Data Processing for Business and Industry 45
Electronics in Industry 46
Electronic Musical Instrument Manual 301
Electrons, Waves and Messages 248
Engineering Electronics with Industrial Applications and Control .. 561
F.M. Radio Servicing Handbook 612
Fixed Capacitors (Vol. 3 Radio and Electronic Components) 144
Foundations of Wireless 249
Frequency Modulated Radio 250
Frequency Modulation 198
Frequency Modulation Engineering 96
Frequency Modulation Receivers 248
Guided Weapons 403
Handbook of Basic Circuits 144
Handbook of Industrial Electronic Control Circuits 199
Handbook of Semi-Conductor Electronics 300
H-Fi Loudspeakers and Enclosures 44
Human Communication, On 560
Impulses and Switching Operations in Communications Engineering. (Impulse und Schaltvorgange in der Nachrichtentechnik) .. 350
Induction and Dielectric Heating 350
Introduction to Colour TV 96
Introduction to Cybernetics, An 145
Introduction to Junction Transistor Theory, An 560
Introduction to Printed Circuits 456
Kempe's Engineers' Year Book 1957 97
Linear Transient Analysis, Vol. 2. Two Terminal-Pair Networks Transmission Lines 348
Mathematics for Electronics with Applications 403
Office Work and Automation 198
Photoconductivity Conference 198
Physics of Nuclear Reactors, The 144
Plant and Process Dynamic Characteristics 508
Polythene: The Technology and Uses of Ethylene Polymers 613
Precision Measurements of Capacitances, Inductances and Time Constants. (Präzisionsmessungen von Kapazitaten, Induktivitaten und Zeit-Konstanten) 457
Principles of Colour Television, The 96
Problems of Semiconductor Technique (Probleme der Hableiter-technik) 199
Proceedings of the Second RETMA Conference on Reliable Electrical Connections 349
Progress in Nuclear Physics, Vol. 5 456
Progress in Semiconductors, Vol. 1 44
Progress in Semiconductors, Vol. 2 613
Quartz Crystals as Oscillators and Resonators 144
Radio Electronics 45
Radio Telemetry 301
Radio, Television and Basic Electronics 402
Radio, Vol. 3 97
Reports on Progress in Physics, Vol. 19 198
Science and Information Theory 97
Television Servicing 97
Television Engineering Principles and Practice Vol. 3 (Waveform Generation) 301
Television Explained 250
Television Receiving Equipment 199
Theory of Networks in Electrical Communication and other Fields, The 508
Transistor A.F. Amplifiers 613
Transistor Circuits and Applications 561
Transistor Engineering Reference Handbook 350
Transistors Handbook 509
Transistors in Radio and Television 250
(Erratum) 297
Vacuum Deposition of Thin Films 46
Vacuum-Tube Circuits and Transistors 349
Variable Capacitors and Trimmers 457
Variable Resistors 44
V.H.F. Radio Manual 301
V.H.F. Television Tuners 248
Voltage Stabilized Supplies 456

C

Calibration of Vibration Pick-ups, The, by K. C. Foster .. 468
Car Radio Aerial, V.H.F. 7
Cathode-Ray Oscilloscope for use in Millimicrosecond Pulse Techniques, A, by J. W. Armitage, G. Gaskin and K. Phillips 364

Page

Cathode-Ray Tube, A Direct Recording 373
(Erratum) 460
Circuit Analysis by Normalization, by J. J. Hupert 226
Circuit Capacitances, A Simple Apparatus for Measuring, by J. C. S. Richard 118
Circuit Techniques Associated with Transistor Broadcast Receivers, by J. N. Barry—
Part 1 408
Part 2 478
Cold Cathode Trigger Tube, Applications of a New Type of, by K. F. Gimson and G. O. Crowther—
Part 1 462
Part 2 536
Part 3 591
Components Symposium at Malvern 579
Computer, The Design of the Pegasus—
Part 1, by T. G. H. Braunholtz 358
Part 2, by G. Emery 420
Computer, A Desk-Sized Electronic 30
Computer for Cable Problems, A 190
Computer Standardization 590
Computers in Australia 91
Computers for British Railways 503
Control Circuit Design, by N. B. Acred 586
Control Installation, A New Process 596

COMMENTARIES .. 1, 51, 101, 149, 201, 253, 305, 357, 407, 461, 513, 567, (Letters to the Editor, 251)

D

Data-Processing System for Norwich, An Electronic .. 286
D.C. Amplifiers, Heater Voltage Compensation for, by J. B. Earnshaw 31
Data Processing System, A High Speed, by M. L. Klein, R. B. Rush and H. C. Morgan 158
Dekatron Calculator, An Accumulator Unit for, by R. Townsend and K. Camm 58
Dictation-by-Telephone 454
Difference Counters, by A. F. Fischmann 546
Digital Computer, A Metrovick 209
Digitizer and Store, A Simple Shaft, by A. Tiffany 568
Doppler Navigator, A 397

E

Electronic Calculator for Harwell, An 363
Electronic Equipment, Heat Control in, by E. N. Shaw
Part 1 13
Part 2 65
Part 3 115
(Letters to the Editor) 197
Electronic Lift Control for Hong Kong 347
Electronic Measuring System for a Jig Borer, An, by C. R. Borley 128
Electronic Telephone Exchange, An 419
Electronically Controlled Tractor, An 91
Electro-Oculography 183
Elimination Technique for Certain Impedance Equations, An, by C. D. Allen 187
Equipment for Russia, British 342
Era (An Electronic Reading Automation) 189
Error-Predicting D.C. Restoring Circuits for Television Signals, by E. L. C. White 472

ELECTRONIC EQUIPMENT .. 48, 98, 146, 192, 242, 302, 354, 404, 458, 504, 562, 614

Airborne Communication Equipments, Modification Kit for .. 48
Airborne Search Radar 506
Aircraft U.H.F. Transmitter-Receiver 49
Amplifiers 245
Amplifiers, Miniature 303
Analogue Computer, Simple 244
Attenuator, Adjustable 49
Automatic Weighing Equipment 244
Batch Counter 354
Beat Frequency Oscillator 98
Bridge, Universal 614
Cable-Form Tester 354
Calibrated Relay 247
Capacitors 195
Capacitors, Paper 48
Card Reader 242
Ceramic Products 355
Ceramic Valveholders 192
Chassis-Cooled Rectifiers 195
Chassis System, Experimental 562
Colour Coding Machine 302
Communications Equipment 505
Connectors 194
Conductance Bridge 246

Page

Crankshaft Hardening Plant 99
Crystal Calibrator 192
D.C. Stabilizers 247
Detector, Portable Metal 303
Dielectric Test Set 49
Diffraction Grating Measuring System 562
Digital Computer 247
Digital Microsecond Chronometer 146
Doppler Drift Measurement Unit 506
Double-Beam Oscillograph 506
Double Three-Phase Power Supply 243
Electronic Megaphone 49
Electronic Motor Control 98
Electrolytic Capacitor Bridge 192
Fasteners 195
Flexible Casting Resin 563
F.M./A.M. Signal Generator 147-192
Frequency Meters 147
Frequency and Time Measuring Equipment 458
Gamma Switch 404
Generator, Pattern 195
Glass Sealing Beads 303
High Power X-Band Tunable Klystron 48
Humidity Sensing Element 146
Indicators, In-Line 303
Instrument Cases and Racks 193
Instrument Type Machines 245
Insulators and Terminals, Miniature 615
Ionization Tester 302
Laboratory Oscilloscope 98
Level Controller 49
Match Test Indicator 354
Microwave Instruments 562
Miniature A.C. Relay 194
Miniature Components 195
Miniature Cooling Fans 192
Miniature Paper Capacitors 563
Miniature and Printed Circuit Components 194
Miniature Protected Silvered Mica Capacitors 194
Miniature Regulated Power Supply Units 458
Miniature Relay 48
Motor Speed Control 243
Moving-Coil Meters 195
Multi-Contact Plugs and Sockets 459
Multi-Range Test Set 194
Navigation and Commuication Equipment 504
Ohmmeter 246
Optical Vibration Meter, Portable 243
Phasemeter (Low Frequency) 246
Photocell Counting Unit 563
Photo-Switches 244
Picture Transmission 504
Plug-in Relays 99
Plugs, Sealed 193
Polarized Chopper, Miniature 562
Polarized Relays 562
Portable Oscilloscope 404
Potentiometer, Multi-Tap Linear 614
Precision Process Timer 246
Printed Circuit Connnectors 195
Process Controller 244
Process Timer 563
Pulse Amplifier 146
Radar Track Indicator 355
Reading Equipment, Trace 614
Relay Construction Kit 48
Relay Testers 302
Resin Moulding 193
Resistors, Unit Construction 615
Ridge Waveguide Components 504
Rotabalance Electronic Balancing Equipment 242
Rotary Stepping Relay 459
Rotary Transformers 195
Rotary Variable Transformers 193
Scanner Unit 506
Servo Units 459
Signal Intensity Meter 99
Silicon Junction, Rectifiers 195
Single-Sideband Transmitter-Receiver 506
Snap Action Switch 563
Special Laminations 245
Staff Location System 99
Standard Chassis 459
Sub-Miniature Crystal 355
Sub-Miniature Plugs and Sockets 195
Switch, Miniature Toggle 615
Switches, Pressure 615
Synchro Test Equipment 245
Synchrononous Convertor 245
Tachometer Generator 247
Telegraph Distortion Measuring Equipment 147
Television Camera Tubes 243
Temperature Controller 193
Terylene Film Capacitors 243
Thermal Shunt Clamp 195
Time Calibrator 243
Time and Frequency Measuring Equipment 242
Timer, Process 615
Torsional Vibration Pick-up 247
Transformers 193
Transformers and Transductors 193
Transistor Decade Counter and Scaler 49
Transistor Measuring Set 245
Transistor Tester 147
Transistor Test Set 405, 563
Transistorized Counter, Portable 615
Turret Attentuator 458
Turret Coil Tester 246
Ultra-Lightweight Batteries 355
Ultrasonic Cleaning Equipment 243
Ultrasonic Generator 506
Unit Chassis Construction System 404
Universal Measuring Bridge 242
U.H.F. Triode 147

Page

Valves, New 98
Valves, New Industrial 405
Valve Protecting Timer 614
Valve-voltmeter 245-405
V.H.F. Mobile Radio Test Equipment 245
V.H.F. Multi-Channel Aircraft Equipment 505
V.H.F. Signal Generator 146
V.H.F. Transmitter/Receiver MR 370 505
Vibration Indicator 243
Wafer Switch Kits 147
Waveform Generator 244
Wide Band Signal Generator 303
Wire Strippers 405

F

Feedback Modulator, A, by J. L. Douce and M. Flinders .. 224
Ferrites and Microwaves, by P. E. V. Allin 292
F. M. Discriminator, An Improved, by V. B. Hulme .. 416
Foetal Phonocardiograph, A, by D. J. Dewhurst and J. F. Mainland 340
Foetal Pulse Rate Recorder, A, by D. H. Smith 132
Frequency Calibration of Quartz Vibrators, A Vacuum Plant for the, by J. Green, B. D. Power and L. Holland .. 440
Holme Moss F. M. Transmitting Station 23
Frequency Transformations and Dissipative Effects in Electric Wave Filters, by D. J. H. Maclean 108

G

Generator, High Impedance Current, (Letter to the Editor) 43
Germanium Ingots, Large Single Crystal 188
Glass Sealing Beads 303

H

H.T. Overload Cut-Out Circuit, An, by J. D. Ralphs .. 398

I

Inductosyn and its Application to a Programmed Co-ordinate Table, The, by L. H. R. Harrison, B. A. Horlock and F. D. Hunt
Part 1 254
Part 2 331
I.E.A. Exhibition, The 242

J

Junction Transistor as a Computing Element, The, by E. Wolfendale, L. P. Morgan and W. L. Stephenson
Part 1 2
Part 2 83
Part 3 136

L

Lace, The Luton Analogue Computing Engine, by R. J. Gomperts and D. W. Righton
Part 1 306
Part 2, by J. C. Jones and D. Readshaw 380
Linear Accelerator for Industrial Radiography, A 281
Letter Sorting Machine, The British Post Office 291
Logarithmic Wattmeter, A, by J. A. Bennet 266
Loudspeaker System, A New 265
Low-Voltage D.C. Stabilizer Using a Saturated-Diode Controller, A, by F. A. Benson, M. S. Seaman .. 121

LETTERS TO THE EDITOR .. 43, 94, 143, 197, 251, 298, 352, 401, 455, 507, 558, 611

Accurate Measurement of Rise Time 507
Characteristics of Varistors, The 558
Circuit Magnification Measurements 298
Current Generators, High Impedance 43
Digital Computers, Applying 251
Heat Control in Electronic Equipment 197
High Current Low-Tension Transistor Stabilizers 352, 507
Linear Logarithmic Function Generators, The Adjustment of 611
L-Type Iterated Networks 455, 558
Out-of-Channel Radiation from Mobile F.M., V.H.F. Transmitters 299
Output Impedance of Anode-follower Circuits 298
Relay Adding Circuits 143
Series-Parallel Transistor Combination, A 197
Square Wave Convertor, A 401
Stabilizer Using Transistors, A Power Supply 95
Step Function Pulse Technique for Ultrasonic Measurement .. 197-298
(Erratum) 251
Thermistor Multivibrator Circuits 455
Transistor Demodulator, A 299
Transistor Multivibrator Circuit, A 251, 455
Transistor Stabilizers, A Note on 94
Transistor Stabilizing Circuits 143
(Addendum) 251
Valve Unit for Single to Multi-Beam Oscilloscope Conversion, A One 94
Waveguide Surface Finish and Attenuation 353

M

Magnetic Tape Store for Pegasus, The, by T. G. H. Braunholtz and D. Hogg 484

Page

Measurement of Distance, The Precise 236
Metallic Varistors, Some Characteristics of, by G. W. Holbrook and A. L. Dulmage 386
Microwave Helical Aerials, by T. G. Hame 181
Millimicrosecond Time-Base, A, by M. W. Jervis and R. T. Taylor 218
Millivoltmeter for Ultra High Frequencies, A, by C. C. Eaglesfield 603
Miniature Amplifiers 303
Modified Periodmeter, A, by V. N. Rao and K. Achyuthan 338
Modulation, Non-linear 7
Modulation of Travelling-Wave Tubes, The, by G. F. Steele 429
Musical Tone Colours from Complex Waveforms, Forming, by Alan Douglas 214

MEETINGS THIS MONTH .. 50, 100, 148, 200, 512, 566, 618

N

Nomotron Counter Tubes, An Improved Circuit for Reliable Operation of, by T. M. Jackson 324
Non-linear Functions by Shunt Loading Tapped Potentiometers in Analogue Computing Machines, Approximating, by D. W. C. Shen 434

NOTES FROM NORTH AMERICA .. 93, 196, 304, 356, 511, 565

O

Optical Scanning and Recording System for a Photo-Electric Optical Bench, An, by T. N. J. Archard and D. H. Rumsey 231
Oscillator, A Very Low Frequency Three-Phase, by M. D. Armitage 318
Oscillator, A Two-Phase Low Frequency, by E. F. Good
Part 1 164
Part 2 210
Oscillators, Millimicrosecond Blocking, by J. MacDonald Smith 184
Oscilloscope for Electrophysiology, A Multiple Channel by P. E. K. Donaldson 78
Oscilloscope, A Seventeen Channel Demonstration, by C. J. Bargery 272

P

Parallel-T RC Networks, The Characteristics of, by D. H. Smith 71
Photocell, Counter for Fertilizer Loading, A 363
Photography, Variable Delay Spark Illumination for Single Shot High Speed, by G. Hodgson 608
Physiological Stimulator Using a Transistor Oscillating Circuit, A Simple, by W. T. Catton, L. Molyneux and B. Schofield 496
PN Junction on a Variable Reactance Device for F.M. Production, The, by D. C. Brown and F. Henderson 556
Portable Metal Detector 303
Pulse Generator, Rectangular, A Versatile, by G. O. Crowther, L. H. Light and C. F. Hill 8
Pulse Transformer Design, Simplified, by J. H. Smith .. 551

PUBLICATIONS RECEIVED .. 50, 148, 200, 353, 401, 512, 559, 618

R

RECMF Exhibition 192
Radiation from F.M., V.H.F. Transmitters, Out-of-Channel, by A. L. Rowles 102
(Letters to the Editor) 299
Radar Receivers, Problems in Protection of, by G. D. Speake 313
Radio Astronomy Observatories at Jodrell Bank and Cambridge, The 445
Radio Telescope, A New 471
Rapid Response Heart-Rate Meter, A, by D. G. Wyatt .. 336
RC Filters and Oscillators Using Junction Transistors, by N. Sohrabji 606
Rectifier Elements and Power Diodes, Dynamic Methods of testing Semi-conductor, by A. H. B. Walker and R. G. Martin
Part 1 150
Part 2 220
(Errata) 297

Page

Recorder, 'Crowd'—A Performance 241
Recording of Digital Information on Magnetic Drums, The, by D. G. N. Hunter and D. S. Ridler 490
Remote Control Systems, Indication Equipment for .. 141
Resistors and their Measurement, High Valve, by G. France 24
Roving Eye, A New 213
Royal Society International Geophysical Year Base Established 236

S

SBAC Exhibition 504
Saturated Diodes with A.C. Heating, Some Characteristics of, by F. A. Benson and M. S. Seaman 343
Selective Amplification at Sub-Audio Frequencies, by F. J. Hyde 260
Semiconductor Factory, A New 330
Series Valves for Small D.C. Voltage Stabilizer, A Discussion of, by C. Billington 377
Signal Generator, A Crystal Controlled, with an Output of 5W at 937.5 Mc/s, by M. T. Stockford 202
Square-law Circuit with High Frequency Response, A Simple, by H. N. Coates 41
Square Wave Convertor with Feedback Control of Mark-to-space Ratio, A, by J. B. Earnshaw 170
(Letters to the Editor) 401
Stabilized D.C. Power Supply Using Transistors, A, by T. H. Brown and W. L. Stephenson 425
Stable F. M. Receiver with Preset Tuning, A, by G. S. Robinson 88
Stabilizer Employing Junction Transistors and a Silicon Junction Reference Diode, A Low Voltage, by D. Aspinall 450
Stereoscopic Television for Harwell 190
Synchronizing Method for Frequency Division, A Double-lock, by J. B. Earnshaw 282

SHORT NEWS ITEMS .. 47, 92, 142, 191, 252, 297, 351, 406, 460, 510, 564, 616

T

Telecine Equipment, A New 312
Telecommunications Equipment for the Azores 7
Telephone, A Mine 373
Telephone Network, New Zealand Trunk 169
Telephone Repeaters using Transistors 131
Telephone Weather Service, Extension of 139
Telerecording Equipment, A New 70
Television Aids Radiation Treatment, Closed-Circuit .. 602
Television in Czechoslovakia, Industrial 233
Television Service in Scotland, The Independent 555
Time Scaler for Nuclear Track Length Measurements, A, by K. Enslein 277
Tolerance Limits of Resistors in Binary Scaling Units, by B. M. Banerjee and S. Choudhury 237
Trans-atlantic Telephone Cable, The Second 535
Transistor Cardiotachometer, A, by L. Molyneux 125
Transistor D.C. Chopper Amplifier, A, by P. L. Burton .. 393
Transistor Demodulator, A, by H. Sutcliffe 140
(Letters to the Editor) 299
Transistor Relaxation Oscillations, by F. J. Hyde and R. W. Smith 234

U

Ultrasonic Cleaning Bath, A New 428
Ultrasonic Measurement, Step Function Pulse Technique for .. 77
(Letters to the Editor) 197, 298
Unit for Controlling the Duration of Radioactivity Measurements, A Miniature, by M. C. B. Russell and J. C. Boag 532
Uniselector Drive, A Variable Slow-Speed, by R. Selby .. 326

V

Valve Heaters, A Compact Stabilized D.C. Supply for, by J. C. S. Richards 604
Valve Voltmeter for Synchro Testing, A, by D. L. Davies .. 52
Vectorscope, A Colour 296
V.H.F. Car Radio Aerial 7
V.H.F. Line Measurements, (A New Method), by F. J. Charman 499
V.H.F. Radio Telephone Link for Needles Lighthouse, A .. 265
Vibration Measurements, Employing Ba Ti O_3 Accelerometers by Jens T. Broch 575
Voltage Stabilizer Principle, A, by C. Billington and E. Chakanovskis 374

W

Waveguide Power Dividers, by T. G. Hame 368
Waveguides, Manufacturing Techniques for 290
(A Symposium held at the Institution of Electrical Engineers)
Waveguides, Surface Finish and Attenuation of, Aluminium by J. Allison and F. A. Benson 36
Wide Band Amplifier Design, by J. Kason 30
Wide Band Balanced and Screened Transformers in the Range 0.1-200 Mc/s, A Design Method for, by M. M. Maddox and J. D. Storer 524
Wide Band Radiocommunication, Demonstration of .. 135
Wide Band Signal Generator 303
Wind Tunnel Instrumentation, by A. Tiffany 514

Z

Zero Correcting Servo for Use with D.C. Amplifiers, A, by B. Shackel and M. Beaney 284
